## MORE ABOUT OUR PARTNER:

FFCC's international work began in Mexico and has expanded to countries all over the world. Their focus is to bring assistance through nutritious food, safe drinking water, medical care, educational support and job creation. With all the work that FFCC does, it is with the purpose of providing a hand-up not a hand-out. Bringing sustainable, practical solutions to the issues is the goal of all their efforts. FFCC is equipped and ready to respond to local or global emergencies through the provision of food, safe drinking water, power and medical care. When Haiti was hit with the devastating earthquake of January 2010, FFCC responded. They have since made repeated trips to Haiti and their partnership with the government leaders, medical community and people of Haiti has grown and therefore so has their impact.

## OUR IMPACT THROUGH ONEMEAL

Through our OneMeal program, KATW equips FFCC to invite people into their work through Fight Against Hunger events. Donors and volunteers come together and pack meals for impoverished communities in Haiti, as well as food stores for domestic and international disaster relief provision.
